

Anik Barua

Frontend Engineer

Dhaka, Bangladesh | anikbrua98@gmail.com | +8801890873395 | GitHub | LinkedIn | Portfolio

Professional Summary

Frontend Engineer with production experience building multi-tenant SaaS and e-commerce platforms. Delivered features used by 10+ live merchants including POS systems and real-time order tracking. Seeking a frontend engineering role where I can scale existing products and grow into technical ownership.

Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, ShadCN UI, Radix UI

Backend: Node.js, Express.js, Prisma, PostgreSQL, MongoDB

State & Real-time: Redux Toolkit, TanStack Query, Zustand, Socket.IO

DevOps: GitHub Actions (CI/CD)

Work Experience

Frontend Engineer — Classic It Ltd.

July 2025 - Present

- Established scalable Next.js architecture from scratch for 4+ production platforms, reducing new developer onboarding time from ~2 weeks to ~1 week through consistent folder structure and reusable ShadCN UI components.
- Built full admin dashboard (Product, POS, Order, Category modules) using role-based route guards, used by 2+ live restaurant merchants to manage daily operations and reducing manual order tracking time by ~2 hours per day per restaurant.
- Managed frontend delivery for 4 simultaneous e-commerce projects, maintaining 100% on-time delivery across all client milestones over 6 months.
- Delivered a complete multi-vendor e-commerce platform supporting 3 user roles (Admin, Vendor, Customer) and a vendor approval workflow, enabling the client to onboard their first 10+ vendors within launch month.

Frontend Engineer — Freelance Client (Evening/Weekend Contract)

Oct 2025

- Built a fashion e-commerce storefront and admin dashboard in Next.js enabling the client to independently manage 200+ SKUs and process orders, eliminating ongoing dependency on developer support.
- Implemented product CRUD operations, image uploads, and order management with optimistic UI updates via TanStack Query for a seamless admin experience.
- Integrated REST APIs across storefront and admin panel with error handling and loading states, ensuring consistent data flow without layout shifts.

React.js / Next.js Intern — XPONENT InfoSystem (PVT) Ltd.

Jan 2025 - Apr 2025

- Built a fashion e-commerce storefront and admin dashboard in Next.js enabling the client to independently manage 200+ SKUs and process orders, eliminating ongoing dependency on developer support.
- Implemented product CRUD operations, image uploads, and order management with optimistic UI updates via TanStack Query for a seamless admin experience.
- Integrated REST APIs across storefront and admin panel with error handling and loading states, ensuring consistent data flow without layout shifts.

Projects

Real-Time Bus Ticket Booking System | [Link](#)

- Developed a real-time seat booking system with dynamic availability
- Implemented transactional flow for ticket booking and user management

React, TypeScript, Socket.IO, TanStack Query, Tailwind CSS, Radix UI

Restora – SaaS Restaurant Platform | [Link](#)

Multi-tenant POS and restaurant management system used by 5+ live merchants. See Work Experience for detailed contributions.

React, TypeScript, Socket.IO, TanStack Query, Tailwind CSS, Radix UI

Multi-Vendor E-Commerce

Bodor Express | [Link](#)

FoodPlus | [Link](#)

Alladin | [Link](#)

Mens Vibe | [Link](#)

Multi-vendor marketplace with 3-role system, vendor onboarding, and automated commission tracking. See Work Experience for detailed contributions.

Next.js, Redux Toolkit, TanStack Query, Tailwind CSS, JWT

LMS Platform | [Link](#)

- Dual role system: Students take courses, Teachers create content and earn revenue
- Drag-and-drop chapter reordering + student progress tracking per course
- Stripe payments + Mux HLS video streaming + UploadThing for video uploads

Next.js, Clerk, Stripe, Mux, Prisma, MongoDB, Tailwind CSS, ShadCN UI

Education

B.Sc. in Computer Science and Engineering – East Delta University

2019 - 2023

Complete Web Development Course – Programming Hero

January 2025
